ASCENT: A Programme with a Focus on Higher Studies

The programme named ASCENT was introduced to the final year students as a result of the suggestion that came from the PTA meeting that a programme may be launched to cater the needs of certain aspirants who are focused on doing their higher studies in the prestigious universities in India, like JNU, EFLU and HCU. A set of (27) students were selected based on their interest in taking the entrance examination of these universities and a 10-hour session was planned with a syllabus attached.

The first part was to make them familiarize with the previous question papers and to make them to equip to take a similar exam this year. Initially the UG syllabus offered in the best universities, including Calicut University, were made familiar and certain missing links in the syllabus of this university were supplied. Different standard books like Beginning Theory, Glossary of Literary Terms, Norton Anthology of Literature were introduced and the students were to taught how to use the index of these books to locate certain topics. A special session was provided to search for details in the internet with the use of our resources provided in the library. It proved to be easy with the support of a rather well-equipped library of our college. Department arranged an interactive session with Ramsheena, a student of EFLU who got admission after the entrance test last year. The department feels that the programme is successful to a great extent and at least ten of the students will get into good institutions this year as we have one of the finest batches this year.

Programme Outcome: well received- created a new outlook- many of them became serious.

Programme Specific Outcome: Ten of them applied for EFLU and HCU.

Course Outcome: Created a new awareness among students, especially the interactive session.

ASCENT: A Programme with a Focus on Higher Studies

ASCENT is a specific programme designed to take care of the aspiring students of the BA programme who plan to take up their higher studies in the reputed institutions in India. It begins with a selection based on the interest shown by the students and who has a desire to travel and settle down outside their comfort zone.

The programme involves an intensive training on history of literature, theory and literary terms. The first assignment is to read a good History of English Literature, followed by a ppt presentation of all the major ages with respect to the key literary figures. Then major theory makers are introduced with another series of ppt presentations. We made use of Peter Berry's Beginning Theory and M.H. Abraham's Glossary of literary Terms. Norton Anthology and Beginning Shakespeare are the other tools used.

A total of 10 hours guidance is given to those who plan to take the entrance exam. It has created a new sense of direction in the students and many are motivated to learn more.

Programme Outcome: Created new interest in reading- provided a new outlook.

Programme specific outcome: Five of them applied for the entrance- two of them placed at Calicut University.
