

## R Sankar Memorial SNDP Yogam College, Koyilandy

### Report on Nature Club 2014-2015

Established in 2004, the institution believes that an understanding of nature will give each individual a better perspective of the world as well as himself. The awareness about the present status of the environment has become very important in view of the precarious situation due to pollution, global warming, ozone layer depletion and the consequent floods and drought would make healthy life on earth next to impossible.

The Nature Club believes that nature teaches life's lessons in its own subtle ways and enables our youth to share their responsibilities in maintaining a healthy environment and to take steps to avoid environmental degradation in their individual capacity as well as in a group.

The main awareness programs undertaken by the members of the club is Tree planting. The campaign and awareness programs for forests and wild life protection have been organized. The campus has become very green and beautiful now.
