

SCIENCE CLUB REPORT: 2017-2018

The first meeting of the science club convened on 21-08-2017 and unanimously selected Ku.Punnya V, Third semester B.Sc Chemistry as secretary of the club. In that meeting the members discussed and proposed about the various programs and decided to conduct at least three programs during the academic year 2017-2018.

The science club celebrated science day on 28-02-2018 by putting posters on various achievements in Science. Nearly 30 posters were presented.

Science club organized a science exhibition on 09-03-2018. Dr.V.Anil, Principal of the college inaugurated the exhibition by lighting the experiment volcano. Total 25 experiments were shown in the exhibition. All students were enthusiastically participated in the exhibition. The exhibition was very interesting and informative. The program will help to improve the scientific temper of the students.

Science club celebrated world water day on 22-03-2018. The members organized a poster presentation on the importance and preservation of water resources.
