International Webinar

on

BIGDATA & HADOOP OVERVIEW

30th July 2020

Platform: Google Meet

An international Webinar on BIGDATA & HADOOP OVERVIEW was conducted by the Department of Computer science on Saturday, the 30th July 2020. The Big Data analytics is indeed a revolution in the field of Information Technology. The use of Data analytics by the companies is enhancing every year. Big data has the properties of high variety, volume, and velocity. Big Data involves the use of analytics techniques like machine learning, data mining, natural language processing, and statistics. With the help of big data multiple operations can be performed at a single platform.

The Webinar began at 11.00 am with the introduction by Hridya .G, Assistant professor of Computer Science. The webinar was inaugurated by the Principal, Dr. Ampily J S, Joshna M, the Head of the Department welcomed the participants. The Webinar was presented by Dhanya Balachandran, Data Analyst, ANZ Bank, Melbourne, Australia. 120 participants registered and around 90 joined in the Google Meet

platform. There were also participants from Tamilnadu, Karnataka, Gujarat and Maharashtra.

A detailed interactive session was carried out after the class. The programme ended with vote of thanks delivered by Remya K, Co-coordinator of the programme.

E-Certificates are issued to all the participants.
