Extension Programme Report 2018-19

Trestle – The Computer Literacy Programme

Computer Literacy is defined as the knowledge and ability to utilize computers and related technology efficiently, with a range of skills covering levels from elementary use to computer programming and advanced problem solving. Computer Literacy Programme (CLP), offered in collaboration with the Department of Computer Science, is an awareness programme of one month duration. The programme will help learner in acquiring basic information and skills related to MS-Office, internet and web technologies.

A survey was conducted near our college in the Kunnyoramala region by Department of Computer Science and found that a basic computer education was necessary to the people living in this region. Also found that one of the Kudumbasree Unit in Kunnyoramala faces some difficulties due to the lack of computer literacy.

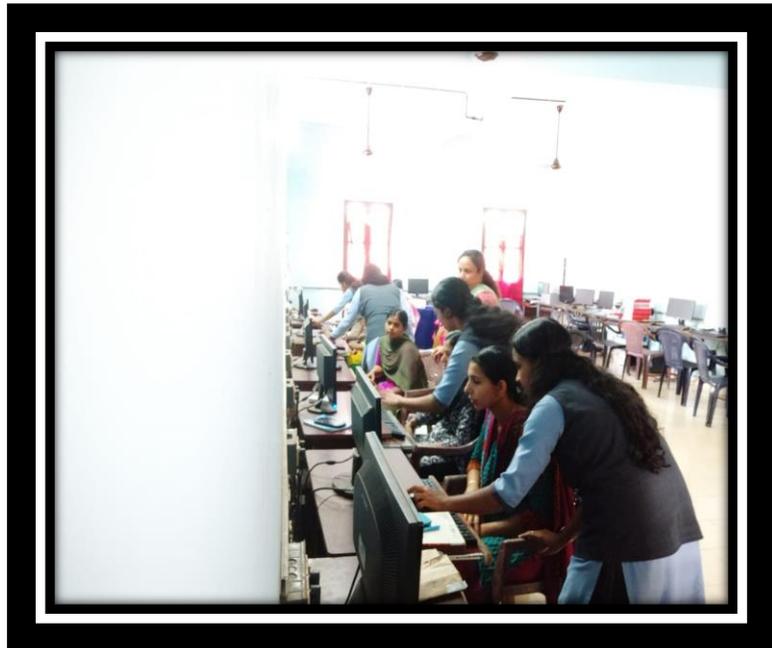

Most of the people belongs to BPL category so it is difficult for them to pay for this basic education. So our department decided to provide a basic training to the people living there.

We, the Department of Computer Science offered one month duration Computer Literacy Programme for Kudumbasree Unit of Kunnyoramala in the month of January 2019.

The following fourteen members of Kudumbasree Unit were registered for the programme.

1. Vidyashree K M
2. Anjana K K
3. Seenath
4. Naseena
5. Suhara
6. Rejila
7. Nisha Vinod
8. Reeja K M
9. Anjali A V
10. Dhanusha N
11. Akhila C P
12. Shini P
13. Savna Renjith
14. Usha Sivan

All of them were regular to the class. Those students who are well in Basics of IT from both second and final year BSc Computer classes guided and managed the classes with the help of computer science department faculties.

After successful completion of the programme a certificate has been issued by the department of computer science to each of the participants. It was a great opportunity to the department as well as our students to serve the society. The participants also got benefitted with this.
